

## **Let's Talk Elder Mediation and Support Service Connection following Senior's Forum**

Hello my name is Clare Koch from Relationships Australia NSW *Let's Talk* Elder Mediation and Support Service.

I met many of you at the Mosman Senior's Forum last month. I wanted to be able to alert you to the Let's Talk service to support older people.

*Let's Talk* is a free service fully funded by Government offering mediation, casework, counselling and referrals to older people and their families who may need support to address issues of aging – to include changing circumstances, future planning, intergenerational conflicts, illness, dementia and end of life.

Our remit is to mitigate against Elder Abuse and to uphold the rights, needs and voice of older people, and to allow them to participate in any conversations or decisions that concern or impact them.

The following Links will provide further information and contact details. I am available to speak with you further or provide information sessions for your organization if required.

We operate no wrong door, and will refer people on to more appropriate services, if we are not the best service to assist them.

Thank you for the amazing services you already provide.

I look forward to hearing from you. Pass this on to the most appropriate person / area in your organization.

With thanks

Clare Koch
